crafting Nature's Beauty WITH carved TILES

The carving effect adds a sense of illusion to a space by providing depth with the shiny creviceslike patterns. This effect is acquired by digitally printing on matt surfaces.

APPLICATION

We made surfaces which are adorn your space and stable in any condition and also easy to applicable anywhere we can call that a timeless beauty.

The image features three overlapping sheets of textured, light brown paper, possibly handmade or recycled, set against a solid black background. The papers are arranged in a fan-like pattern, with the largest sheet in the center, a smaller one to its right, and a third one partially visible at the top left. The lighting is dramatic, highlighting the fibrous texture of the paper and creating soft shadows on a dark grey surface below. The overall composition is minimalist and artistic.
